

La Motteraye Consignment offers the largest consignment on quantity with 27 foals, 19 mares and 16 fillies, and the draft is also big on quality, its foals including the Dubawi filly who is the second foal out of Classic winner Just The Judge (Ire) (Lawman {Fr}) (lot 175). The G1 Irish 1000 Guineas winner's first foal, a full-brother to this filly, topped the most recent Arqana August yearling sale when sold by La Motteraye and bought by Ballylinch Stud for €1.4-million.

La Motteraye's Gwenael Monneraye said that the filly is more forward than her elder half-brother.

"They are both nice horses, but the filly may be a bit more sharp than the colt--she's all quality," he said. "She's very much like a Dubawi filly and we are very excited to have her.

"She's a nice filly, she walks well. I saw her in the spring and she developed well through the summer. She's a beautiful filly; David [Redvers] said she was one of the best-looking foals he had at Tweenhills. Even here she stands out in the draft we have."

The filly is bred by Qatar Racing and China Horse Club, which partnered on the mare at 4.5-million gns at Tattersalls in 2014 when she was offered to dissolve the partnership between Qatar Racing and the Sangster family.

"The partnership is a commercial association; they are willing to sell all the progeny of the dam and they thought this year was a good year to sell as a foal, so we'll see if they're right," Monneraye said. He added that his team is very grateful to have the support of the breeders.

"We have worked with David Redvers right from the beginning of La Motteraye, and he has always supported us really well," he said. "We can't thank him enough for letting us sell such good horses. We've been working together since the beginning and it's always worked well."
